

ESB 2022

32ND ANNUAL CONFERENCE OF THE
EUROPEAN SOCIETY FOR BIOMATERIALS

- A. Drug Delivery
- B. Nanobiomaterials
- C. Scaffolds
- D. Textiles and fibers
- E. Bio-derived biomaterials
- F. Additive manufacturing & Bioprinting
- G. Surface fonctionnalisation
- H. Synthesis and processing techniques
- I. Stimuli-responsive & Porous materials & Bioreactors
- J. Composites
- K. Mechanical & Physico-chemical / characterization & High-throughput / screening
- L. Bioceramics and bioactive glasses
- M. Protein surface interactions & Carbon & Metals
- N. Biomimetic and bioinspired materials & Biosensors & Genetherapy

- O. Cardiovascular tissue engineering & Modulation of vascularisation & Soft tissue
- P. Immunomodulatory biomaterials & Biomaterial imaging
- Q. Dental and maxillofacial
- R. Organ models & Tissue models & Wound healing
- S. Osteoarticular & Antimicrobial & Legal and regulatory aspects
- T. Cell & Tissue material interactions
- U. Bacteria material interactions & Virus-surface interactions & Neural tissue & Preclinical studies
- V. Biocompatibility & Biodegradation & Artificial intelligence & Robotics
- W. Hydrogels & Polymers/Supramolecular biomaterials & Adhesives and anti-adhesives
